ABOUT ME

I am a Laravel developer with 1 year of experience in the field of software engineering. I have studied software engineering and have gained skills in HTML, CSS, Bootstrap, WordPress, and Laravel. I enjoy reading, coding, and playing cricket.

EXPERIENCE

Final Year Project   2021 - 2022

I have done FYP Project in PHP Framework (Laravel). Which is about Medicine Distribution Management. This project allows distributors to get order online and deliver it.

Laravel Developer   Nov 2022 - Feb 2023

I have 3 months of experience as a Laravel Developer in Alright Tech Private Limited. Developed software using the Laravel framework. Handled user authentication and authorization. Implemented CRUD operations for data entry and retrieval. Created RESTful API endpoints for a Laravel application.

PHP Developer   Mar 2023 - Present

I am working as a PHP Codeignitor developer in the Lala Group of Companies. I maintain and develop the company website and add new features to the company website.
